

**Do you have a health issue that won't go away?
Are you around technology all day?
Could Electro-Magnetic pollution be the reason?**

Teslas Lifestyle Kits

In today's world, we are surrounded by and bombarded with all kinds of energy. It is amazing that we withstand the onslaught on our cells from high-tension power lines, wireless transmissions, microwaves, phone towers, 5G, and other electromagnetic frequencies, combined with the Earth's energies in different places.

People are constantly searching for a safe haven where they can find peace from this onslaught, even for a short period each day. But often the atmosphere they try to create eludes them.

Many people are strongly aware that something is not quite right; they can feel it but they can never put their finger on it because it's

invisible. They know energy is affecting their health and thought patterns but don't know what to do about it, if anything at all.

Tesla's Technologies helps to address these issues in our lives. Using their proprietary technology, a number of different plates and technologies can be used to counter the effects of each kind of energy.

Without prejudice the data in this manual is for educational purposes only.

Looking for somewhere to start your energetic upgrade? **The Teslas Bare Essential Kit** is designed to do exactly that.

1. First with the **Teslas Pendant** to enhance your bio-energetic field, supporting your bodies energetic needs.
2. Second with the **Teslas Phone Tags** to negate the effects of the microwaves and Blue-tooth so they can pass through you and not leave any residue.
3. Thirdly with the **Teslas Pocket Plate** that increases the harmonic field around you as well as being used for number of energetic purposes.

Each shape reflects how the energy of the Teslas Pendant is applied to the person, therefore it is **important to choose which shape resonates with you the best.**

We have found that if people choose the pendant based on what the shape does or colour, rather than the one that resonates with them, they tend to take the pendant off and not wear it.

After wearing the Teslas Pendant for 48 hours it becomes part of your personal energy pattern. For this reason it should never be worn by another person.

- **Teslas Round pendants:** In ancient times the symbol of the circle was used to describe the meaning of life as it has no beginning and no ending, it just is. The Tesla Round Pendant embraces this concept and brings an energy wholeness to ones life.
- **Teslas 14 Sided Pendants** assists more with the energy of the nervous system for people who have more tension and stress in their lives.
- **Teslas 8 Sided pendant** assists people who spend large amounts of their time in chaotic energy fields, like in front of computers, hospitals, pilots in the air, train drivers, electricians etc.
- **Teslas Oval pendants** help to assist those people who are on a journey of personal growth.
- **Teslas 10 Sided pendants** are for those people who are on a mission in life and who need a boost to make it happen.
- **Yin Yang pendants** add another level of balance to round or 14 sided pendants, for people who are looking to support the male and female energies.

The Teslas Essential Kit takes care of the main areas in your life that are in need of energy balance.

It builds on the Teslas Bare Essential Kit and adds the **Teslas Small Oyster Plate** and the **Electron Stabiliser**.

The Teslas Small Oyster influences an area of approximately 1 acre. It produces a bubble of energy which helps counteract Geopathic Stress 6 stories up and 6 stories down.

This is particularly important when it comes to 5G. It produces a specific energy (non-Hertzian) that makes the frequencies from M/Phone towers (Microwave), Satellites, Radar, 5G and high voltage power lines bio-compatible.

The Teslas Electron Stabiliser is designed to lift the oppressive weight that electrically sensitive people feel when exposed to EMR and EMFs.

Many people do not realize that the homes we live and the places we work in, are like cages of electrical energy.

This AC electrical energy that we rely on, by its nature, is chaotic to the membranes of our cells, causing electrical disruptions to the way our cells function.

The Electron Stabiliser turns that chaotic energy back into a coherent field of energy.

The Teslas Essential House Kit takes care of the main areas in your life that are in need of energy balancing including your Car and Water.

It builds on the Teslas Essential Kit and adds the **Teslas Car Plate** and the **Water Kit**.

The **Teslas Car/Travel Plate**, was developed to place a specific energy into the wiring of your car thereby helping to calm the bio-energetic system of both the driver and passengers. It also helps with other forms of transport including planes and trains.

The **Teslas Water Kit** once placed on

your water pipe alters the electrical ionisation of the molecules from a majority of positive ions to a majority of negative ions. Water becomes soft, which gives water-increased solubility and thereby allows more oxygen to be carried in the water. The body's cells absorb this water much easier, this water penetrates the soil easier thereby helping the environment. The water is energized and makes showering/bathing a joy.

For Apartment Living

In Apartment Living it is sometimes hard to be able to access the main water pipe coming in. For this reason we have swapped the Teslas Water Kit out for the **Portable version that has two smaller Water Kits** that can be placed directly on the tap that is being used.

Most people place one on their shower and the other one on the tap that they drink from most of the time.

It works exactly the same way as the larger Teslas Water Kit.

The Teslas Essential Elite House Kit takes care of a larger area helping the neighbourhood.

It builds on the Teslas House Kit and adds the **Teslas Elite Oyster Plate** and the **Smart Meter Plate**.

The **Teslas Elite Large Oyster Plate** influences an area of approximately 30 acre and is especially designed to be used on large properties or high rise buildings. Great for the neighbourhood. It produces a bubble of energy which helps counteract Geopathic Stress 18 stories up and 18 stories down. This is

particularly important when it comes to 5G. It produces a specific energy (non-Hertzian) that makes the frequencies from M/Phone towers (Microwave), Satellites, Radar, 5G and high voltage power lines bio-compatible.

Smart Meters

The current medical literature raises credible questions about genetic and cellular effects, hormonal, blood brain barrier damage, and increased risks of certain types of cancers

from RF and ELF levels similar to those emitted by ‘**smart meters**’. Children are placed at particular risk.

Solution

Thankfully we have the Teslas **Smart Meter Plate**. Once this plate is placed on top of the Smart Meter concave side down, it negates the negative effects caused by smart meters. This helps for the people living and working around smart meters.

The Teslas Essential Elite Business Kit supports businesses that have 3 phase power and a Laptop

With 3 phase power two Electron Stabiliser's are required, one for phase 1 and one for phase 3.

How safe is your Tablet and Laptop?

After much research and testing, the **Tablet/Laptop Tag Set (TLTS)** has been developed for Tablets and Laptops.

This new Tablet/Laptop tag set is a very powerful answer to the many devices that people are using. These

devices are generating Electro Magnetic Frequencies (EMF) that are causing our DNA to break down.

This has been proved by seeing the DNA generate heat shock proteins due to the damage that is being caused by EMFs. Electromagnetic (EM) and Microwave fields emanating from the bluetooth and Wi-Fi antennas of Tablets and Laptops are believed to cause bio-energy effects to the DNA when they are in use.

**Hybrid & Electric Cars:
Electromagnetic Radiation Risks**

Hybrid and electric cars may be cancer-causing as they emit extremely low frequency (ELF) electromagnetic fields (EMF). Recent studies of the EMF emitted by these automobiles have claimed that they pose a cancer risk for the vehicles' occupants.

Unfortunately, much of the research conducted on this issue has been industry-funded by companies with vested interests on one side of the issue or the other which makes it difficult to know which studies are trustworthy.

In the electric vehicles (EVs), children can sit on the batteries in a safety seat installed in the rear seats. Owing to their smaller physical dimensions, their heads, generally, are closer to the underfloor electrical systems where the magnetic field (MF) exposure is the greatest.

“EMFs in a car in motion with brakes applied + ABS activation may well exceed 100 mG. Adding RF radiation from blue tooth, Wi Fi, the cell phones of the passengers, the 4G antennas laid out all along the major roads plus the radars of cars already equipped with, located behind, left or right of a vehicle, the total EMF and EMR fields will exceed any limits humans can tolerate over a long period of time.”

The Teslas Hybrid Kit addresses the above problems by having the Car Plate in the front and the two Smart Battery Plates in the back, placed concave side down on the two batteries found in most Hybrid cars.

The Teslas Teenager Kit is specifically designed to reduce the effects of mobile phone use. (Which is out of control in today's world.) Teenage brains are much more susceptible to the microwave frequencies than adults.

The Teenage Pendant is specifically shaped to support their bodies level of energy and frequency against the assaults of electro-magnetic pollution.

Teslas Children's Pendant support the most vulnerable people on the earth to electro-magnetic pollution, our children. Many parents have noticed a significant change for the better, in their children, after they have started wearing their Teslas Pendant.

Pets and Inflammation

Our pets are being effected by all the Electro Magnetic Frequencies and are exhibiting the disease that are caused by inflammation from EMFs.

Because we care, we have a specific range of Teslas products just for our pets. Many people have asked for these over the years and now we have them.

After 24 hours the **Teslas Animal Pendant** will have adapted to their energy matrix and should then not be worn by other pets.

The **Teslas Animal Pendant** was specifically designed to be worn on the collar and has a unique tie cable. During the proprietary manufacturing process the vibrational signature of the metal (Titanium) has been varied so that it

acts as a transceiver of specific photons (packets of light/energy).

This product then has the effect of strengthening your pets energy field, thus helping to alleviate the bio-energy effects of some man-made EMF/EMR. The process is similar to an antidote, which transforms a poison to neutral and educates the body to resist the poison next time. Testing has been done on a variety of pets after they have worn the Pendant in **the correct position for 24 hours** with great results.

The proprietary treated metal in the **Teslas Animal Pendant** is not affected by any chemicals (body acids or chemicals in water etc.), so bathing or swimming with the Pendant on **is recommended**.
